Haitian Diplomat Visits West-
Virginia State College Nov. 30th; 4 Haitian Students

Institute, W. Va., Nov. 30. — M. Antoine Bervin, Secretary of the National Haitian Commission of Intellectual co-operation, is holding a series of conferences at the West Virginia State college. His coming is the result directly of President John W. Davis' attendance at the Inter-American Conference on Education recently held at Washington. Interest in Haiti has been increased since the coming last year of his Excellency, M. Elie Lescot, Minister of Haiti.

Also the enrollment of four Haitian students in W. Va. State college for courses in English from the French in the Department of Romance languages and in vocational subjects in the Department of Trade and Technical education has aroused renewed interest.

M. Bervin is a graduate of the University of Paris, served in the International Labor Office in Geneva, Switzerland, and is now in the United States after a tour of Canada, where he addressed the French population. He comes to West Virginia after a tour of six New England states and lecture engagements at Columbia university and New York university.

In an interview this morning, Mr. Bervin announced that his country through its minister, M. Lescot is seeking to promote economic and intellectual relations with the United States. By this intellectual cooperation the Haitian government hopes that Americas will turn to study the origin of the Haitian people, their history, their efforts to establish itself among the liberty-loving nations of the world. With this in view we cordially invite professors, journalists, writers, citizens of all interests to come and study Haiti on the spot.

Haiti is a vast social and ethnological experiment. It has a tropical agriculture and a folklore which can become a very

very useful center for research. Haitian music and literature likewise present an extensive field. On the other hand we want Haitians to come to the United States to study the sciences and the arts in general. It is for this reason the Haitian government is maintaining students at Columbia, West Virginia State college, Rutgers, Cornell and Hawaii.

Commercially, Haiti hopes to increase its business with the United States. More than 65 per cent of imports to Haiti come from the United States. She hopes in return to sell at least 40 per cent of her coffee to the United States.

Thus Haiti envisages a cultural intellectual and economic co-operation with America.

Protest Graves as Possible Secretary of War I Event

New York, Dec. 1st. — Expressing concern over reports that President Roosevelt might appoint Alabama's former governor Bibb Graves to a cabinet post possibly as Secretary of War, or Assistant Secretary of Agriculture, the National Association for the Advancement of Colored People urged the Chief Executive to abandon any plan for the appointment of Graves to any Federal post.

In a letter to the President, dated November 28, the Association gave three reasons for opposing any consideration of Graves: his attitude toward Negroes would be calculated to increase discrimination against this group of citizens in the country's armed forces and in agriculture; his complete repudiation of "unequivocal promises" to free the remaining Scottsboro boys, while he was Governor of Alabama; and "the undeniable charge" that the former governor "was a member of the Ku Klux Klan."

Tweeds Once Called "Twach"
The power loom was introduced in the woolen trade of Scotland about 1820 and tweeds were then known as "Twach."

Seasoned Timber

The athletic contests of the world usually are won by young men. Seldom do we find men over forty that combination of physical strength, endurance, and speed that makes the champion. In times of war the men who go "over the top" are young men, as are the men who fly our fighting planes and wage our battleships.

In industry and in business there are certain types of work that can best be done by young men at their healthiest, strongest, and most energetic.

SHE LOST 20 POUNDS OF FAT

Well full of pep and possesses the slender form you crave—you can't if you listen to gossipers. To take off excess fat go light on fatty meats, butter, cream and sugary sweets—eat more fruit and vegetables and take a half teaspoonful of Kruschen Salts in a glass of hot water every morning to stimulate excess waste.

Mrs. Eliza Venable of Havre de Grace, Md., writes: "I took off 20 lbs.—my clothes fit me fine now."

© No drastic cathartics—no constipation—but a better daily bowel action when you take your little daily dose of Kruschen.

CARD OF THANKS

We take this means to thank all who contributed to the comfort of our mother during her illness and to us in her death, also the Kimball Undertaking Company, especially to Messrs. Crider, King, Edwards and Young for the way in which they handled affairs in the absence of Rev. Johnson who was ill.

Mr. and Mrs. Moses Miller.
